

ICY BOX Diamond Charge 2401

Model: IB-PS2401

Manufacturer: ICY BOX

EAN: 4250078175605

Product Code: 1739042

R2,996

LCD-TFT display with real-time monitoring

The integrated 2.26" LCD-TFT display shows real-time voltage information and temperature status. Thanks to TFT technology, it provides high resolution and quick screen updates with minimal delay. Switch effortlessly between total output data, individual port information, and temperature monitoring. Instead of guessing what is happening, you see it instantly.

Advanced GaN technology in a compact design

Built with modern GaN technology, Diamond Charge 2401 combines high output power with a compact housing. This makes it suitable for professional desks as well as demanding home environments. Power and space efficiency go hand in hand.

Massive 240 W power

Which device to charge first? All! Diamond Charge 2401 gives you the freedom to power multiple high-demand devices at the same time. Whether it’s notebooks, tablets, smartphones, or smaller everyday devices, this charging station is built to handle it. Even when 2 high-power ports are used simultaneously, it supports serious performance.

Dual 140 W USB-C® Ports for power-hungry devices

The 2 USB-C® ports each support up to 140 W output. This makes them ideal for modern high-performance notebooks and other demanding equipment. They provide the power needed for fast and stable charging. It’s your strong foundation for professional or high-end home setups.

4 USB-C® and 2 USB-A Ports got you covered

With 4 USB-C® ports and 2 USB-A ports, Diamond Charge 2401 offers wide compatibility. The additional USB-C® ports deliver up to 100 W each, while the USB-A ports support up to 30 W. Simply charge everything from notebooks to smaller everyday devices simultaneously.

Your missing puzzle piece for your setup

Diamond Charge 2401 is designed for those who rely on multiple devices throughout the day. It supports smartphones, smartwatches, earbuds, tablets, and notebooks all at once. No more rotating chargers or prioritize devices.
