

ACT USB-A External Sound Card

Model: AC9360

Manufacturer: ACT

EAN: 8716065514810

Product Code: 1741535

R1,062

The AC9360 USB-A External Sound Card is the solution for controlling your audio instantly. The sound card is suitable for connecting a headset with 4-pole 3.5mm audio jack. Easily adjust the volume with the volume up or down buttons. The separate microphone and headphones mute buttons allow you to mute these functions at any time.

External sound card with 3.5mm audio jack

The AC9360 includes its own chipset and thus functions as a standalone external sound card. Connect the sound card to the USB-A port of your laptop/computer. Next, a headset with 4-pole 3.5mm jack can be connected to the AC9360. The cable length is 50 centimeters.

Volume control with mute buttons

The USB-A sound card has integrated volume control buttons for turning the volume up and down. The two mute buttons are dedicated to the microphone and headphones. They can be muted separately.

Convenient status LED

The status LED allows one to notice instantly if the microphone or headphones is enabled. The LED will blink blue when the sound card is active. Does the LED blink red? The microphone is muted. If the LED remains blue, the speaker is muted.
