Get a dose of joy in every ride! Drive like a real race driver with T98 Ferrari 296 GTS: inspired by the Ferrari’s steering wheel with recentering technology, 240° of rotation and 3 driving profiles to suit all user levels.

**Under the hood**

## Inspired by the Ferrari 296 GTS

Drive like a real race driver with this official racing wheel (7:10 scale) inspired by the Ferrari 296 GTS. The wheel rim (10″ / 25.5 cm in diameter), with its imitation carbon accents and high-performance paddle shifters, will give you a truly lifelike experience of driving a Ferrari. Join the Tifosi and drive the world’s most famous Italian cars. Forza Ferrari!
This product is officially licensed by Ferrari.

## A more immersive racing experience

Bungee cord technology automatically returns the wheel rim to the centered position and provides linear resistance for real driving sensations. Thanks to its 240° rotation angle (compared with 180° for a standard gamepad), you can be more precise in your maneuvers and take winning trajectories. The racing wheel also features all the buttons found on a standard gamepad, for total control in games.
Your racing games will be more intense and immersive than ever!

## 3 driving support profiles

The selector dial inspired by Ferrari’s iconic Manettino lets you switch between the 3 driving support profiles: from the most realistic to the easiest to use. In this way, T98 Ferrari 296 GTS adapts to all gamer profiles — from beginners to experienced drivers. Switch from one profile to another on the fly and share unforgettable moments with family and friends.

## Compact and easy to install

The racing wheel can be installed quickly and without any tools, thanks to its clamping system for mounting on desks and tables (up to 1.8″ / 4.5 cm thick). Its compact, space-saving design makes it

easy to put away after each gaming session. No additional software is required: just plug and play!

## Pedal set with Hall effect sensors

A 2-pedal pedal set with accelerator and brake is included. The pedals feature Thrustmaster’s patented H.E.A.R.T. Hall effect sensors to ensure that the product will retain its razor-sharp precision for years to come. The pedal set’s compact design allows it to even be installed and used in small spaces.

## Great for Forza Horizon 5 on Xbox Series, Xbox One and PC

As T98 Ferrari 296 GTS is an officially-licensed Microsoft product, the racing wheel functions flawlessly on Xbox Series and Xbox One. It is also compatible with PC (Windows 10/11). T98 Ferrari 296 GTS is great for Forza Horizon 5, and is plug and play in most racing games*.
