TP-Link VIGI 32 Channel Network Video Recorder

Model: VIGI NVR4032H

Manufacturer: TP-LINK

EAN: 4895252500752

Product Code: 1748793

R15,234

Security Never Shuts Down

32 Channel Network Video Recorder

Every angle all on one screen.

4K HDMI Video Output & 32MP Decoding Capacity

Sharp image definition up to 8MP ensures you capture every detail. 16-ch@2MP/ 8-ch@4MP decoding capacity allows you to enjoy more-channels live view and playback at the same time

Independent Video Output

Greatly reduces the time spent on switching between screens.

Connect the HDMI and VGA ports to the two different screens and freely choose what live views each screen shows. That way, you will enjoy multi-channels live views simultaneously.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The VGA and HDMI ports display live views and configuration & playback interface, respectively. It will allow users to play back the videos or configure the devices while watching live views at the same time.

Rich Ports for Diversified Functions.

Equipped with a variety of ports, VIGI NVR4032H integrates 16× alarm in, 4× alarm out, two-way audio, video input, independent video output, and more, suitable for SMB surveillance scenarios.

Dual Ethernet Ports Design

Supports a variety of network modes to meet your different needs.

Higher bandwidth for high-definition cameras.

320 Mbps Video Access Bandwidth

High video access bandwidth ensures your NVR manages more cameras with high resolutions.Based on laboratory testing using VIGI cameras, VIGI NVR can manage up to 32 HD cameras.

Smart Video Coding by H.265+

Compresses the video size without sacrificing video quality, easing the network load and saving disk space.

Security for every hour and every day.

4 SATA (1 up to 10TB)

Automatically and continuously stores up to 40 TB of footage from connected cameras to secure your data for quick, convenient access.

Space-saving and easy installation.

Rack Mounting

Just simply plug your NVR into the rack and connect it to the appropriate power and communication cables. Then, it is ready to go. This will give more convenience for many industrial and commercial applications.

No need to check long compatibility lists.

ONVIF Ensures Compatibility

Easily add IPCs from VIGI and other brands to establish a powerful and varied network thanks to
