

EcoFlow DELTA 3 Max Plus battery

Model: EFD3MP-EB

Manufacturer: ECOFLOW

EAN: 4895251660204

Product Code: 1044952

R20,517

Battery for EcoFlow DELTA 3 Max Plus

EcoFlow DELTA 3 Max Plus Smart Extra Battery is an extra battery that expands the capacity of your power station by another 2048 Wh. It allows you to provide power to your needed equipment for longer - for example, in emergency situations or while traveling. The device uses high-quality LFP cells, which are distinguished by efficient performance and long life. The battery is compatible with EcoFlow DELTA 3, DELTA 3 Plus, DELTA 3 Ultra Plus and DELTA 3 Max Plus power stations.

Seamless connection

Connect the battery pack with a single wire, and the system will automatically recognize the device and prepare it for operation. When the battery icon appears on the station's screen, it means everything is ready to go. In addition, the Smart Extra Battery has a built-in LED indicator that tells you about the power status and charging process, among other things.

Durability and safety for years

The battery uses lithium-iron-phosphate (LFP) cells, which ensure long life - it will serve you for years to come. Its additional advantage is the integrated safety features that protect against overheating, overvoltage, short circuit and overload, among other things. What's more, the device works reliably over a wide temperature range (discharging from -10°C to 45°C, charging from 0°C to 45°C), so it will work well both at home and in the field.

Flexible charging methods

You can charge the battery in two ways: through a compatible EcoFlow power station or with the EcoFlow smart generator. This way you can easily prepare it for use in almost any circumstances.

Included

- Battery pack for the EcoFlow DELTA 3 Max Plus
- Battery cable
- User manual

Manufacturer	EcoFlow
Model	EcoFlow DELTA 3 Max Plus Smart Extra Battery
Color	Silver
Capacity	2048 Wh
Dimensions	494 × 239 × 196 mm
Weight	16 kg
Screen	No
Number of ports	1
Additional battery port type	4+8
Output	43.2-57.6 V, 100 A
Input	43.2-57.6 V, 48 A

Discharge temperature From -10°C to 45°C

Charging temperature From 0°C to 45°C

Storage temperature From -10°C to 45°C
