GSS 18V-13 Professional: Further information

Product Highlights

The GSS 18V-13 Professional offers optimal control on larger surfaces. This is achieved through an excellent tool balance, with the centre of gravity close to the workpiece and the superior ergonomics of the palm rest and grip. Its brushless motor and Bosch’s Professional 18V System ensure fast work progress - recommended battery is the ProCORE18V 4.0Ah. It can be easily operated thanks to its intuitive concept and interchangeable sanding plate system.

Equipment & Application

The GSS 18V-13 Professional is intended for basic sanding, in-between sanding, lacquer removal, and finishing surfaces. It is applicable on wood, veneer, lacquer, and filler, as well as mineral and acrylic. It is compatible with the Bosch Click & Clean dust extraction system and the Professional 18V system.

Additional Information

It features a dust bag, speed selection and interchangeable sanding plates in three different sizes fitted with a hook-and-loop system for fastening sanding sheets.
