

InLine Wall Bracket for TFT / LED / Plasma 81 - 140cm 32 - 55" max. 75kg

Model: 23102A

Manufacturer: INLINE

EAN: 4043718172320

Product Code: 460512

R1,216

Flat wall mounting with minimal wall clearance: The design allows for permanent installation with approx. 36 mm wall clearance. The display is integrated inconspicuously and space-savingly.
Flexible positioning despite fixed mounting: The lateral adjustability allows for precise alignment of the display. Mounting inaccuracies can be compensated for without new drill holes.
High load capacity for larger displays: Designed for display diagonals of 81-140 cm and a load capacity of up to 75 kg for stable continuous operation.
Wide VESA compatibility: Supports hole spacings of up to 425 x 400 mm and is compatible with many common displays.
Increased safety during installation: Security screws prevent accidental unhooking and provide additional support.

The InLine wall mount for displays was developed for stable and permanent wall mounting. It is

suitable for displays with a diagonal of 81-140 cm and supports VESA hole spacing up to 425 x 400 mm. Due to the small wall distance of approx. 36 mm, the display sits particularly close to the wall. The lateral adjustability allows for precise positioning even with off-center holes. The robust construction reliably supports displays weighing up to 75 kg. Security screws increase stability and reduce the risk of accidental unhooking. Suitable for TFT, LCD, LED, and plasma displays.

Rigid wall mount
For TFT, LCD, LED, and plasma displays
Display diagonal: 81-140 cm (32-55")
Maximum load capacity: 75 kg
Wall clearance: approx. 36 mm
Lateral sliding
With security screws
VESA up to 425 x 400 mm
