

InLine Wall Bracket for TFT 33-69cm 13-27" max. 30kg

Model: 23114A

Manufacturer: INLINE

EAN: 4043718172061

Product Code: 460524

R924

Extra-flat mounting: The wall mount allows for secure display installation with only 15 mm clearance from the wall for particularly discreet integration.
High compatibility: Supports VESA 50x50, 75x75 and 100x100 mm and is suitable for numerous displays in the 13-27 inch range.
Secure fastening: Integrated security screws provide reliable protection against accidental removal of the display.
Easy installation: The sophisticated hook system allows quick and efficient mounting on the wall.
High load capacity: The sturdy construction is designed for displays weighing up to 30 kg.

The InLine wall mount for displays is designed for secure and space-saving wall mounting. With a very small wall clearance of only 15 mm, the mount is ideal for installations where a discreet appearance and permanent positioning are important. Thanks to its support for VESA standards 50x50, 75x75 and 100x100 mm, the wall mount is compatible with a wide range of common displays in 13-27 inch formats. Mounting is carried out using a simple hook-in system, which enables quick
