The XL-Arm TV wall mount from InLine is particularly suitable for complicated mounting conditions. The extra-long arm extension of 1015 mm (40") ensures a maximum viewing radius with almost unlimited swivel. This allows the mount to master almost any mounting challenge. The heavy-duty arms provide secure support even for heavy equipment up to 50KG (110lbs). The quick-release mechanism makes it easy to detach the TV from the wall. The viewing angle can be adjusted flexibly and easily. The integrated cable management ensures a clean appearance.
