

Euhomy IM005 15kg Ice Maker (Black)

Model: IM005-CBL

Manufacturer: EUHOMY

EAN: 5905156101326

Product Code: 1045927

R4,408

Euhomy IM005 15kg Ice Maker (black)

The compact Euhomy IM005 ice cube maker produces 16 ice cubes in just 13 minutes and can produce up to 15.4 kg of ice cubes per day. It's the perfect choice for summer parties or for the kitchen. What's more, the device allows you to adjust the thickness of the ice cubes according to your preferences and the type of beverages. Additionally, the IM005 ice maker offers two filling methods: via a 2-liter water tank and using a water bottle with a capacity of up to 11 liters.

Easy to use

The device is equipped with a smart control panel with an LED screen, which not only allows you to turn on the ice maker but also set a timer for up to 24 hours, start automatic cleaning, or receive a notification when the water runs out or the ice bin is full. You can also choose one of three available ice cube thicknesses—preparation will take 8 minutes, 13 minutes, or 20 minutes, respectively.

Easy maintenance and cleaning

The ice maker features an automatic cleaning function—simply hold down the “+” button for 3 seconds to start a 20-minute self-cleaning cycle. This convenient solution helps keep the unit fresh and hygienic without the need for manual washing.

Thoughtful and compact design

The IM005 model combines high performance with a compact size. The device measures 22 × 29.5 × 42.5 cm, making it easy to fit on a kitchen countertop. The transparent lid allows you to monitor the ice-making process without having to open it, and the included scoop and ice bin with a capacity of approx. 0.8 kg make daily use easier. A practical scoop holder prevents it from getting lost.

Included

- ice cube maker
- ice scoop
- user manual
