R1,671

With the multi-hub from InLine you can expand one USB Type-C port by two USB Type-A, one USB Type-C and one HDMI port. The very compact hub supports data transfer rates of up to 10 Gbps, resolutions of up to 4k at 60Hz and power delivery of up to 100 watts. Compatible via lug-and-play are Mac and Windows operating systems in alternate mode as well as Thunderbolt 3.0 connections. The connection cable can be stored under the aluminum housing. Coupled with the robust construction and low weight, the hub is particularly
