

PXN-A10 handlebar stand

Model: PXN-A10

Manufacturer: PXN

EAN: 6948052902207

Product Code: 1046112

R2,510

PXN-A10 steering wheel stand

The PXN-A10 is a sturdy, collapsible steering wheel and pedal stand designed for gamers who want to combine convenience, stability and space saving. Made of durable Q235 carbon steel, it provides a stable base for driving simulation, regardless of the intensity of gameplay. It's a versatile solution for those who use different models of steering wheels, pedals and shifter sticks.

Foldable

One of the biggest advantages of the PXN-A10 stand is that it can be quickly folded without disassembling the equipment. When folded, it takes up much less space (about 72.5 x 48 x 16.5 cm), which allows you to easily hide it, for example, behind a closet, under the bed or in a corner of the room.

Make it fit you

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The PXN-A10 stand offers a wide range of adjustment options. You can change the height of the entire structure (from 30 cm upwards), the angle of the platform for the handlebars and pedals, as well as the position of the plate for the gear stick or handbrake - on the left or right side. In addition, each plate has multiple mounting holes, allowing you to precisely adjust the position of the equipment to your needs.

Multi-brand compatibility

Thanks to the clever placement of mounting holes, the PXN-A10 supports many models of steering wheels, pedals and shift sticks - including PXN (V10, V12), Logitech (G25, G27, G29, G923), Thrustmaster (T300, TGT, TSPC, TH8A), Fanatec (CSL, DD1, DD2, CSR, CSW), MOZA (R21, R16), as well as Simagic.

Stable and durable construction

The whole structure is made of thick carbon steel, which guarantees durability and resistance to overloading. Non-slip pads under the legs increase the stand's grip on the ground - both on hard floors and on carpet. This ensures that everything stays in place even during heavy braking or sudden maneuvers in the game.

Manufacturer	PXN
Model	PXN-A10
Material	carbon steel Q235
Dimensions	approx. 72 x 64 x 75 cm (unfolded); approx. 72.5 x 48 x 16.5 cm (folded)
Weight	approx. 11 kg
Operating temperature	10~40°C
Working humidity	20-80%

Net weight: 11000, Box width: 44,50, Box height: 16,50, Box length: 74,00, Gross weight: 11930
