Model: RXBTZH-02

Manufacturer: ROJECO

EAN: 6975116296293

Product Code: 1046843

R1,776

ROJECO Button 3L Food Dispenser with 2L Water Dispenser

The ROJECO Button combines a 3-liter automatic food dispenser with a 2-liter water dispenser, making it easy to feed and water your pet regularly. The device lets you schedule up to 6 meals a day and set up to 9 portions for each meal, and it also offers a 10-second voice recording to call your pet for a meal. Two water flow modes, triple filtration, a system that keeps food fresh, and dual power sources ensure that the set comprehensively supports your pet's daily care.

Regular meals and voice recording feature

The ability to set up to 6 meals throughout the day helps maintain a regular feeding schedule without having to measure out food manually each time. You can select up to 9 portions for each

meal, allowing you to create a personalized schedule tailored to your pet's needs. The feeder also supports personalized voice recordings up to 10 seconds long, so your pet can hear your familiar voice at mealtime.

Smooth Dispensing of Various Types of Food

A system that prevents food from getting stuck helps keep the dispenser running smoothly during daily use. The ROJECO Button is designed for food particles ranging from 2 to 10 mm in size. You can also use dry, dehydrated, or freeze-dried food, as well as mixtures of different types of food. The mechanism's design minimizes the risk of the outlet becoming clogged, ensuring a smooth dispensing of scheduled portions.

Two Flow Modes and Triple Water Filtration

The water dispenser offers a stream mode and a fountain mode, allowing you to adjust the water flow to your pet's preferences and encourage your cat to drink more often. The triple filtration system helps keep the water clean and fresh-tasting—the first sponge filter traps fur, larger particles, and other impurities; the activated carbon layer removes heavy metal residues and contaminants; and another sponge filter absorbs small particles. Additionally, a gentle blue light indicator makes it easier for your pet to find the water dispenser after dark.

Larger Supplies and Freshness Protection for Food

The dispenser holds 3 liters of food, and the water dispenser has a capacity of 2 liters, which reduces the need for frequent refills. The semi-transparent design allows you to monitor the remaining food and water levels at a glance. A dual-seal system isolates the food from outside air; a desiccant packet helps reduce moisture and protect the contents from pests; and the concealed outlet closes after food is dispensed, further limiting air exposure.

Quiet Operation and Dual Power Supply

The ROJECO feeder operates at a noise level of approximately 30 dB, ensuring its operation won't disturb household members or pets. The dual power supply system allows you to use either a DC outlet or 3 D batteries, ensuring that food dispensing continues even during a power outage.

Batteries are not included.

Easy cleaning

The modular design makes it easy to regularly clean the parts that come into contact with food and water. The food hopper, bowl, and water dispenser are washable, making it easy to keep them clean during daily use. Do not wash the base of the unit.

Included

- Food dispenser
- Water dispenser
- User manual

Food dispenser

Input voltage AC 100–240 V, 50/60 Hz

Output voltage DC 5 V

Capacity 3 L

Dimensions 290 × 190 × 188 mm

Weight 1.20 kg

Material ABS

Power supply DC power supply or 3 D batteries (not included)

Cable length 1.5 m

Water dispenser

Material ABS

Capacity 2 l

Input AC 100–240 V, 50/60 Hz
