What is ROG Sheath?

The extra-large ROG Sheath BLK LTD mouse pad is optimized for all gaming mouse types, with a smooth surface that perfectly ensures pixel-precise tracking for unmatched command and control. ROG Sheath BLK LTD is designed for your comfort and features a non-slip rubber base that keeps it in place and stitched edges that resist fraying.

A Sheath is a protective scabbard for swords and blades. In our gaming world, ROG Sheath BLK LTD serves as the home base for all your gaming peripherals as you command them into battle. Your opponents may be crushed or ripped to shreds, but not ROG Sheath! Get ready to experience gaming stardom with ROG Sheath BLK LTD — now!

A Perfect Glide with Pinpoint Precision

ROG Sheath BLK LTD has an intricately-woven surface that's perfectly to ensure a smooth glide for your gaming mouse. Whatever your preferred gaming settings are — you're guaranteed pixel-precise control.

It's been subjected to a barrage of stress tests, including a mouse glide distance of more than 250km, and exposure to temperature extremes of -30°C and 60°C for 57 hours. Its 3mm thickness also ensures a comfortable cushioned surface too.

Go Big or Go Home

ROG Sheath BLK LTD is massive, measuring 900 x 440 x 3mm, so there's more than enough room for all your gear including your laptop, keyboard, and mouse.

Designed for the Long Run

ROG Sheath BLK LTD features a non-slip rubber base that ensures it stays put. You're always in control, even when you're involved in an intense firefight. Durable stitching along the edges prevents fraying, even after years of service.
