Work from anywhere with the Targus Works With Chromebook Bluetooth Antimicrobial Keyboard. This slimline keyboard has a lightweight design for easy carrying alongside your Chromebook laptop and other workspace essentials. No need to worry about tangled wires or connection disruptions, this keyboard uses reliable and power-saving Bluetooth Low Energy 5.2 wireless technology. Plus, it was engineered for ChromeOS compatibility so you can work seamlessly with your Chromebook.

Durable and resistant, the Google reference design of this keyboard makes for a comfortable typing experience, and its dual-zone, Chrome-optimised layout make it the ideal accessory to ensure productivity on your Chromebook is smooth and effortless. And, for an added benefit, this keyboard features Targus DefenseGuard Antimicrobial Protection, which doesn’t wear or wash off, creating a cleaner surface to type away for the life of the product.
