is ideal for anyone who needs receipt printing on-the-go. Now also approved for in-vehicle applications, it’s even more robust than ever, providing increased impact resistance and protection to IP54 standards, and can be easily mounted onto a belt, or shoulder carried. With USB-C connectivity, plus support for Bluetooth 5.0 “classic” and low-energy modes, it provides excellent range, seamless pairing and reliable all-day battery life, while its Wi-Fi 5 capability means that it offers excellent wireless performance, including a Wi-Fi “Direct” mode, enabling direct connection of up to 8 devices without the need to connect to a network or hotspot. Supplied with a comprehensive “quick start” sheet, which includes QR-codes that link to video guides, set-up and configuration is fast and easy.
