This Dockingstation reflects the spirit of the times

The USB 3.1 (Gen2) standard with Type-C™ continues to find its way into offices and private homes. Many computers are built with the interface and therefore offer double the transfer rates for copying data compared to USB 3.0. The twist-proof Type-C™ plug saves not only time but also nerves.

Docking and loading in record time

This DockingStation offers enough space for SATA III drives of 2.5" or 3.5" form factor. With the new USB 3.1 Type-C™ connection, the transfer rate of SATA III at 6 Gbit/s can be used to the maximum.

No wallflower

The IB-1121-C31 does not shy away from being presented on every desk thanks to its elegantly shaped case with embossed decoration. The discreet blue LED ensures that the DockingStation is well noticed.
