Transform your system using Kingston FURY™ CTRL to choose from over a dozen lighting patterns or customise RGB effects on the sleek heat spreader.

Kingston FURY™ Infrared Sync Technology™

Keep RGB lighting effects in sync with patented Kingston FURY Infrared Sync Technology.

Intel® XMP Certified and XMP-Ready

Our engineers have predefined [Intel Extreme Memory Profiles] to reach speeds of up to 3733MT/s[*] to get the most out of your memory.

Ready for AMD Ryzen™

Trust your AMD-based system to get down to business in-app or in-game with memory that’s ready for Ryzen.

Plug N Play – Automatic overclocking up to 2666MT/s**

For a reliable and compatible upgrade, Kingston FURY Beast DDR4 RGB Plug N Play modules will auto-overclock to the highest listed speed allowed by system BIOS.
