You get the ultimate in 1D scanning performance — period. Your workers can scan barcodes as fast as they can pull the trigger. With 30 percent more working range, it’s easy to capture barcodes that are farther away. Are barcodes under shrinkwrap? Damaged? Dirty? Poorly printed? No problem, this intelligent scanner can handle it all.

ULTRA-RUGGED DESIGN

The manufacturing plant floor is as tough as its gets — and the cost of unplanned downtime on the production line is astronomical. That’s why we created a new product category — the ultra-rugged scanner. This dust-tight and waterproof scanner offers the highest drop, tumble and sealing specification in this class, and is the only scanner to offer two sealing ratings — IP65 and IP67.

UNRIVALED MANAGEABILITY

With our complimentary industry-best tools, managing these scanners couldn’t be easier. You can remotely configure and upgrade your scanners, format data properly for instant transmission into your business applications, monitor battery statistics for your cordless models and more.
