

InLine HDMI Videowall controller 1 to 9, Full-HD

Model: 57839I

Manufacturer: INLINE

EAN: 4043718279081

Product Code: 1049286

R8,221

This stand-alone video wall controller has been designed to use high-quality multiple displays and can duplicate or enlarge a video source and distribute it to up to nine monitors. With the InLine® HDMI Video Wall Distributor you can combine 9 monitors with a max. screen resolution of 1920x1200 to a large video wall (3x3 monitors). For the input signal you have an HDMI or VGA interface available. The InLine® HDMI Video Wall Distributor is easily controlled via an IR remote control. The extended frame compensation can help to optimally adapt the picture to the video wall. The InLine® HDMI Video Wall Distributor is the ideal solution for all professional video applications such as digital signage, advertising, A/V splitting or broadcasting.
