

Displex Samsung Galaxy Z Flip5/Z Flip6/Z Flip7 FE Tempered Film

Model: 02024

Manufacturer: E.V.I

EAN: 4028778124175

Product Code: 629859

R737

Displex® takes responsibility for climate protection

Climate protection is a special concern for us. That is why we are working to reduce emissions as much as possible and to design packaging that is as environmentally friendly as possible. The sustainable EASY-ON® Eco Mounting Frame made of premium solid cardboard, which replaces the plastic mounting frame that has proven itself millions of times over, makes a special contribution to this. In addition, we are also actively committed to the reforestation of our forests: DISPLEX® launched a sustainability initiative in August 2019 and plants over 10,000 trees every year together with "Plant-for-the-Planet". As a result, DISPLEX® is well on its way to becoming a climate-neutral brand.

Display protection "Designed in Germany" - quality pays off.

DISPLEX® is the top-selling display protector in Germany. 25 years of experience, passion and the highest standards of product quality without compromise have made us display experts. In-house product development allows us to continuously improve our existing product line and innovate to the highest degree. Millions of satisfied consumers trust DISPLEX® screen protectors for their smartphones again and again, and specialist media have repeatedly awarded our "Designed in Germany" screen protectors the title of test winner or "VERY GOOD".

Smart Glass - 9H screen protection that is virtually unbreakable!

DISPLEX Smart Glass is a combination of conventional protective glass and extremely thin, flexible, virtually indestructible protective film. With a surface hardness of 9H, it offers very good protection against scratches and other damage. At the same time, with 0.25mm, it is ultra-thin, resistant, flexible or bendable and therefore almost indestructible. The DISPLEX Smart Glass is manufactured with the latest laser technology in our production facility in Straubing, Germany, and is precisely adapted to the contour of the smartphone display - Made in Germany. The unrestricted functionality, colour brilliance and case compatibility are of course guaranteed.

Simple & bubble-free application

With the EASY-ON® Sticker and the accompanying video tutorials, mounting the Tempered Glass is incredibly quick, easy and precise. The result is worth seeing: no crooked positioning of the screen protector on the display, no hidden openings for speakers or microphones and certainly no bubbles under the protective glass.

Case-friendly

Our Displex protective glass is manufactured to within 5/100 mm of the smartphone contours and therefore fits perfectly on your Samsung Galaxy Z Flip5/Z Flip6/Z Flip7 FE. In addition, the protective film is ultra-thin at 3mm. This means that all standard-sized protective cases can be used with the screen protection glass. Thus, your smartphone is optimally protected all around by a combined protection of the Displex Tempered Glass and your favourite case.
