All the security you need in a sleek and practical design. The HyperShield™ MacBook Pro Cable Lock is a tool-less cable lock designed exclusively for 14" and 16" MacBook Pro users. With hassle-free installation that doesn’t require any tools, this innovative lock attaches onto the air vent of your device, preserving its minimalist aesthetic and keeping all ports accessible for uninterrupted functionality. Secure your MacBook Pro to any fixed anchor with the robust, cut-resistant 6.5ft galvanized steel cable—perfect for coffee shops, offices, libraries, and other shared environments. Lightweight and portable, the HyperShield™ MacBook Pro Cable Lock is an essential solution for anyone who prioritizes security, ease, and reliability.

Efficient Device Security for IT Teams

The HyperShield MacBook Pro Cable Lock offers quick, tool-less setup across large fleets, ensuring full access to all ports for seamless connectivity. Easily removable and re-deployable, it allows IT teams to repurpose or reassign devices without damaging the MacBook Pro. This cost-effective

solution reduces setup time, boosts operational efficiency, and provides reliable security, all while maintaining device integrity.

Tool-Less Cable Lock for MacBook Pro

Effortlessly attach directly onto the air vent of a 14" or 16" MacBook Pro without any tools, adhesives or screws. Its innovative design ensures that anyone can use it with ease, saving time and simplifying security. Ideal for busy professionals working in public spaces, who need a fast, portable security solution.

Designed for the 14" & 16" MacBook Pro

Compatible with all Apple Silicon MacBook Pro models, the HyperShield Cable Lock offers a precise fit without disrupting or damaging from your device’s premium aesthetic.

Full Port Functionality

Unlike traditional locks that obstruct essential ports, the HyperShield Cable Lock ensures that all ports remain fully usable. Charge your laptop, transfer data, and connect peripherals - all while staying protected.

Secure Your MacBook with a Reliable Key Lock

Featuring a secure key locking system, the HyperShield Cable Lock guarantees reliable protection for your MacBook Pro, keeping it firmly tethered to an anchor point of your choice. Each lock comes with two keys for added reassurance.

Durable 6.5ft (2m) Galvanized Steel Cable

The 6.5ft long cable is built from heavy-duty galvanized steel, offering cut-resistant strength and rust-proof reliability. Its length provides versatility, enabling you to secure your MacBook Pro to a number of different fixed objects.

Perfect for Use in Public Spaces
