ASUS ExpertWiFi EBG15 Gigabit VPN Wired Router

Your Business Network Expert Within Reach

The ASUS ExpertWiFi EBG15 provides a fast, secure and scalable network with rich features tailored for small-to-midsized businesses. EBG15 enhances network stability through Ethernet connectivity and provides internet backup with two WAN/LAN ports and one USB port to support business operations. As businesses expand, owners can connect the EBG15 to the switch and access point for broader coverage, ensuring the scalability and extendability of ExpertWiFi.

For remote employees or small business owners, ExpertWiFi provides stable and reliable internet connections. And with comprehensive VPN protocols, users can access their networks with site-to-site VPNs for encrypted office or home network connections, easily and securely.

ExpertWiFi provides an all-new platform for innovative business services. Brand information and advertising can be promoted via the Guest Portal feature to engage with your customers in different ways.

ExpertWiFi networking products are prepared to scale to customer needs. Businesses can greatly expand the size of their network when using ExpertWiFi devices.

To help protect data and information, the ExpertWiFi series offers commercial-grade network security through a free subscription to ASUS AiProtection Pro and Safe Browsing features.

Fast, Versatile Connectivity to Accommodate the Business Scenarios

For a larger or multi-story space, you can build a strong and stable network by connecting the EBG15 gigabit VPN wired router and the EBP15 PoE+ switch to three EBA63 PoE access points. If you require additional network coverage, you can easily add more EBA63 units to your existing business network.

Maximize Performance with
ASUS ExpertWiFi PoE+ Switch and PoE AP
ASUS ExpertWiFi networking products are designed for easy scalability to fit a variety of SMB scenarios. By integrating ExpertWiFi series products, you can extend your business network coverage and access a complete suite of ExpertWiFi’s software features to boost your business operations. You can also connect the ExpertWiFi products with ASUS AiMesh extendable routers.
*The ASUS ExpertWiFi series is compatible with ASUS AiMesh products; however, the functionality of software features is subject to the capabilities of the primary router. The availability of some ExpertWiFi features may also depend on whether the AiMesh router supports them.

Secure and Efficient Business Operation with VLAN

The ExpertWiFi series supports virtual local area network (VLAN)* management for enhanced security of your business. VLAN management enables an easy, fast and flexible way to segment wired and wireless networks, with support for a dedicated Ethernet port to provide even more data protection.

Easy Settings for Your Business via the ExpertWiFi App

Suitable for Business Applications

The compact ExpertWiFi EBG15, at 121x75x26 mm, fits in the low voltage wiring box. Its site-to-site VPN enables secure connections and resource sharing across locations. With two WAN/LAN ports and a USB port for backups, it ensures stable connectivity.

The EBG15 provides reliable and stable internet access for business owners. In addition to two WAN/LAN ports that can be set as backup WAN, you can also set the USB port as a backup WAN by connecting it to your mobile phone with a hotspot. No complicated setup is needed—just plug it in and use it.

Environment Certification

ASUS ExpertWiFi is stringently tested to meet the requirements of world-leading sustainability certifications. These tests include a comprehensive database of up-to-date criteria, independent verification and a structured system for continuous improvement.

Eco-Friendly Packaging

All ExpertWiFi products come with environmentally friendly packaging sourced from FSC-certified responsible forestry, and they benefit from more active management of the use of chemicals in the production process, to improve the recycling of packaging and substances, and to reduce environmental impact.
