LogiLink MP0024 wire connector RJ-45

Model: MP0024

Manufacturer: LOGILINK

EAN: 4052792027570

Product Code: 1051338

R1,096

LogiLink's Modular connectors or RJ45 plugs are used to terminate twisted pair network cables or to assemble patch cords. RJ45 male modular connectors are called plugs, while female connectors are jacks. LogiLink offers a great selection of modular plugs and boots in order to customize the cabling perfectly. Usually, one SKU consists of 100 plugs and 100 boots in a bag.
