

Mars Gaming MPIII750 PC Power Supply 750W ATX 85% Efficiency 5 Year Warranty

Mars Gaming MPIII750 PC Power Supply 750W ATX 85% Efficiency 5 Year Warranty

Model: MPIII750

Manufacturer: MARS GAMING

EAN: 8435693100225

Product Code: 1051392

R2,242

MPIII750 POWER SUPPLY

5 years warranty thanks to the latest high-precision SMD manufacturing technology, double-layer fiberglass PCB and A-grade components for total reliability. Maximum silence with the new AI-RPM technology. 99% DIGITAL APFC efficiency, 85% electric efficiency, extra-long black flat cables and all protection and safety systems included.

5 YEARS WARRANTY. 85% EFFICIENCY

750W of power

85% EFFICIENCY

5 YEARS WARRANTY

5 YEARS WARRANTY. TOTAL SECURITY. SMD.

Thanks to the latest high-precision SMD manufacturing technology and the use of the highest quality and reliable A-grade components, the MP11750 offers an extended 5-year performance warranty. Its ultra-stable SMD fabrication on a double-layer fiberglass PCB ensures extreme performance and reliability under any circumstances. In addition, the MP11750 integrates the most advanced and complete electronic safety systems: OVP (over voltage protection), UVP (under voltage protection), OCP (overpower protection), OPP (overpower protection) and SCP EXTENDED (total internal and external short circuit protection). The MP11750 has been developed in Europe and manufactured under the strictest European standards.

ABSOLUTE SILENCE. AI-RPM AND FDB.

Equipped with the latest AI-RPM fan control technology ideal for ensuring noise-free operation, the MP11750 features state-of-the-art intelligent thermal control based on advanced algorithms and multilevel control systems to keep the fan to a minimum. In addition, the MP11750 features an industrial-grade fan with dynamic fluid bearing and extra-large motor to maximize its stability. All available technology to ensure minimum noise and maximum efficiency and durability.

PROFESSIONAL EFFICIENCY

With 99% efficiency in the DIGITAL APFC system and 85% electric efficiency you will achieve a perfect balance between efficiency and consumption. In addition, its +12v single-rail technology allows you to install the most demanding hardware.

OPTIMIZED CABLE DESIGN

The MP11750's cables are flat, black, and extra-long: a combination of features that make installation not only easier than ever, but also totally versatile for any mounting in any type of case. Build the ultimate PC with an oversized tower and enjoy your games in style.

EPE HIGH PROTECTION PACKAGING

To ensure that the MP11750 power supply arrives in perfect condition it is fully protected by special packaging with a full shock absorption system.
