Built-in URL filtering, device blocking, and LCD passcode locking lets you protect your family and enjoy a safer online experience, anywhere life takes you

Keep sensitive data secure

Using public WiFi networks puts your private data at risk. With M7 Pro, you can use your own secure WiFi network anywhere with no worries.

Fast, reliable WiFi anywhere you go

Ensure you have the best WiFi at all times with 5G-powered WiFi can go anywhere you do: Instantly connect the entire job site, host a livestream, or join a Zoom call from anywhere. Get more speed and connectivity than a mobile phone hotspot and stop draining your battery.

Ultra-fast and reliable wired connections

When you need incredible speed and reliability, Nighthawk delivers. Blaze through your most important tasks with wired speeds up to 10Gbps over USB-C and 2.5Gbps over Ethernet.

All-day power

Nighthawk M7 Pro offers a powerful battery with up to 13 hours of battery life*, so you can rely on it for even the most challenging days, without worry.
