Our most easy-to-use Mousetrapper. Lite is the base product in the Mousetrapper range, and is designed to suit a full-size keyboard. It is intended for users who only need the right-click, scroll, and click functions on the Mousetrapper's unique control pad. Lite also has soft, padded wrist supports available in red or titanium gray. A centered position for your hands is essential to prevent RSI. Overstretching the arm to reach for the mouse beyond the keyboard is a common trap. By using an ergonomic mouse like Mousetrapper you get an ergonomically healthy position that keeps your arms and hands relaxed. It has been found that a centered mouse, often after only a couple of weeks, provides a noticeable improvement.
