TAKE WHATEVER YOU WANT

Are you looking for a universal backpack that will allow you to take on a trip not only your computer, but also several accessories? Genesis Pallad 410 is the perfect choice. Easily carry a laptop up to 15.6" and don't worry about its safety. The inner compartment is covered with soft foam, which will protect it from mechanical damage and accidental impacts. What's more, dedicated pockets will allow you to take the necessary peripherals with you. They will not only protect them during a trip, but also help to maintain proper order inside.

FULLY RESISTANT TO DAMAGE

Reliable and durable – this is exactly how Genesis Pallad 410 can be described. It owes its durability to 1680D polyester – a material with a clear and dense weave structure resistant to unfavourable conditions. To further strengthen Pallad 410, we have equipped it with a vertical waterproof pocket on the front and an improved handle for carrying in a traditional way.
