5 EFFICIENT FANS

The Genesis Oxid 450 RGB is equipped with an effective cooling system, which is based on 4 smaller fans that carry away warm air and one large fan that brings in a cool stream. Their arrangement is a major asset. Additional two-stage speed control will allow you to increase performance during the most intense games.

ANGLE ADJUSTMENT

The Genesis Oxid 450 RGB offers up to five levels of tilt adjustment, so you can adjust the stand directly to your needs. This will guarantee the best gaming experience. The stand is also equipped with rubber feet to prevent the product from sliding on the floor.

BUILT-IN USB HUB

Don't want to lose a valuable USB port? With the additional USB HUB integrated into the Genesis Oxid 450 RGB, you don't have to worry about it. Connecting it to the device will not reduce the number of available slots.

EVEN LOWER TEMPERATURES

In addition to its unique extras and exclusive design, the Genesis Oxid 450 RGB stand offers high efficiency in reducing laptop temperatures. This is thanks to the front panel made of high-quality aluminum. In addition, it helps to dissipate heat, increasing performance.

PHONE ALWAYS WITH YOU

The Genesis Oxid 450 RGB features a removable phone holder that can be mounted on the right or left side of the stand. So if you want to stay in touch with the world during gameplay or keep track of important information, your phone will always be close at hand.
