R1,407

Good sound, comfort, and functionality, all enclosed in one design. Meet the Genesis Radon 800 - an around-the-ear, closed gaming headset that lets you hear every detail. Use the functionality of volume control and microphone mute. Match them with the additional ear pads included in the kit and enjoy convenience for hours. Tasteful backlight? Surprise anyone who sees you with them on. That's Radon 800.

ONE TO RULE THEM ALL

Genesis Radon 800 are closed headphones that will allow you to delve into the virtual world. All this thanks to 40 mm drivers tuned so that you can hear every detail. Whether you're passionate about open-world adventures or dynamic firefights on virtual battlefields, the Genesis Radon 800 is perfect for any scenario.

LIGHT AS A FEATHER

So comfortable that you will forget that you have them on your head. With the super-lightweight design of the Genesis Radon 800, it's possible. The weight of the headphones with material ear pads connected by a 3.5 mm cable is only 179 grams. In combination with excellent ventilation, this guarantees many hours of gaming sessions without bothersome pain. Such a lightweight headset is a relief for your head.

UNPLUG AND CONNECT TO WHATEVER YOU WANT

Do you want to connect the headset to your smartphone and go for a relaxing walk after a long game? Or maybe you want to play your favourite title on a portable console? With Radon 800 you can do it easily. Thanks to the detachable cable, you can turn them into comfortable stereo headphones with a good and universal sound. You can also unplug the microphone it and place the headphones in the bag that came with the set. This will avoid mechanical damage and make their transport easier than ever.

EVERYTHING AT HAND

With the Genesis Radon 800, everything is simple. You don't have to lose focus to adjust the volume or mute the microphone. Thanks to the built-in elements in the shell, you can do it in a fraction of a second. Focus on the game and forget about dedicated keyboard shortcuts that will take your eyes off the screen.

A MICROPHONE THAT WON'T FOOL YOU

The microphone is an essential element in the headset for any player. Not everyone works well during the game. By choosing the Genesis Radon 800, you can be sure that your messages will be clear, distortion-free, and teamwork will be as successful as ever.

ADDITIONAL EARMUFFS INCLUDED

Do you care about comfort? Thanks to the additional ear pads made of material included in the set, you can match the Genesis Radon 800 to your liking. Choose between excellent insulation and a wider, more spacious scene - discover the advantages of both.

RECORD AUDIO FROM EVERY DIRECTION

Is stereo sound not good enough for you and are you looking for proper spatial sound? The Genesis Radon 800 allows you to activate 7.1 surround sound. Hear details coming to you from anywhere
