CyberPower OR600ERM1U Line-Interactive UPS offers Simulated Sine Wave output power for office system devices including PCs, workstations, networking devices, and peripherals. It’s typically integrated in the back office, server room, and data center environment to ensure a reliable backup power supply during power failures. In addition, the rackmount / tower convertible design gives it enhanced flexibility for installation and operation in almost any environment.

The UPS has a multifunction LCD display which offers real-time information, including input and output voltage levels, load and battery levels, battery runtime, overload warning, and a silent mode.

With the network ports on the UPS, it prevents network devices from being subjected to sudden power surges caused by lightning, thereby avoiding potential system damage. As for battery maintenance, the UPS allows battery hot-swapping, which enables users to perform normal battery maintenance without significant interruption.
