Digitise anything with ease

The ScanSnap SV600 allows you to scan newspapers, bound documents, magazines or books without the need for cutting or causing damage.

Scan anything from business cards to A3 size (landscape)* documents

Any documents larger than A4 such as maps, historical documents and blueprints can be simply positioned on the black pad and scanned directly without any extra effort. User interaction retouch tool allows the possibility to hold the document in a good position without worrying about fingers on the scanned image.
* The maximum document size will be 400 x 300 mm when the thickness of the document is over 5 mm.

New VI technology

Equipped with “VI technology” which combines a ‘deep depth of field lens’, a ‘CCD linear image sensor’ and a ‘high directivity LED lamp’ the SV600 is able to comfortably minimise any unevenness in image quality and generate a smooth image even when scanning from a distance.

No problem scanning bound documents

The SV600 can comfortably scan books and magazines and also documents with sticky notes can be scanned without any issues.

No need to worry about your delicate documents or books

With “VI technology”, scanning can be performed without touching the document. You do not need to worry that documents such as crayon or oil paintings, pencil writings or photos will be damaged by touching.

Long depth of field lens

Wide auto focus area even when the focus distance is variable

CCD linear image sensor

Helps produce smooth images.

The SV600 scans documents with a movable head and incorporates a High directivity LED lamp

Helps maintain the same brightness level without any impact from surroundings.

Rack2-Filer Smart is a feature-rich scanning and content viewing application incorporating an ultra-intuitive bookshelf and binder interface that gives users a familiar and enjoyable interaction with their scanned paperwork.

Smooth operation with the assistance of various functions

The SV600 is enhanced with a host of customised features which helps continue ScanSnap’s concept of being simple, speedy and compact.

Quick Menu facilitates operability

ScanSnap’s Quick Menu will automatically pop up after scanning enabling you to link your scanned data to an application both quickly and easily, scan directly to the cloud for example thereby easily sharing your documents.

ScanSnap SV600 includes
Rack2-Filer Smart and Magic Desktop

ScanSnap SV600 offers a unique and intuitive way to scan your books, magazines and newspapers to your e-reading devices. It comes bundled with filing software Rack2-Filer Smart and Magic Desktop with which you can easily generate, virtually organise and read your own scanned material.

Automatically crop several documents with ‘Multiple Document Detection”

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. In just one touch you can capture multiple documents of differing sizes in just one scan pass. Place several business cards, receipts and photos within the scanning area and the SV600 will capture all the documents and will intelligently crop to the exact size.
* Up to 10 documents can be cropped automatically. At least 15 mm
is needed between documents.

Fast start up time and scanning speed lead to time savings and efficiencies

The SV600 can be ready to scan in no time from power up and just 3 seconds is then required to scan an A3 landscape sized document.

Compact design with a small footprint

The SV600 is incredibly robust with a firm footing and is compact enough to enable efficient usage of your workspace without imposing to your daily routines when not in use.

Step 1

Scan with one touch!

With a host of impressive features, you can continuously scan multiple pages smoothly.

Page Turning Detection

Automatically detect when the page is turned.

Timed Mode

- You can set the time to start scanning after the “Scan” button is pressed.
- For continuous scanning you can set the time interval before the next scanning to begin.

Step 2

Auto image correction; enhances the reading experience

Book Image Correction – Automatically correct distortion caused by the curve of an opened book or magazine. You can confirm and fine tune the scanned images on the preview dialog after scanning or have this be performed automatically.

Book Image Correction

Can easily correctdistortion of the document.

User interaction retouch

Finger images scanned while suppressing the document can be deleted with ease.

Step 3

Go paperless with digital filing

The new feature of “Rack2-Filer Smart”, “Easy book creation”, is especially added for SV600. You can divide pages and create thumbnails using the scanned front and back cover of the book after scanning.

Step 4

Organising and Viewing on the go

Carry your scanned documents with you anywhere and anytime; you can conveniently browse your scanned digitised material from your tablet or Smartphone. “Rack2-Filer Smart” manages and organises all your scanned images while providing you with the
functionality to utilise data in many ways.

ScanSnap Receipt

*

The ScanSnap Receipt software allows you to easily scan and extract information from your receipts, and even export the data for tax filing.
