

LevelOne PoE Repeater, 2 Ports, Cascadable

Model: POR-0102

Manufacturer: LEVELONE

EAN: 4015867149355

Product Code: 1055894

R6,579

Extend the reach of your PoE devices

For system integrators looking for a professional solution to help extend their PoE network, POR-0102 is the perfect accessory to increase your Power over Ethernet network performance. As a 2-port repeater, it’s now easier to add more devices to the network for greater deployment flexibility.

Simple yet durable, no software required

As a PoE Repeater, POR-0102 receives all power from the Power Sending Equipment (PSE), for example, a PoE switch. This means that POR-0102 uses no external power supply, making it an ideal component for system integrators looking to increase the distance of the attached devices. With a durable metal housing and small footprint, POR-0102 fits into any tight deployment.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Applications

POR-0102 works great for large IP surveillance networks with many cameras deployed throughout a building or campus. It is also an ideal solution for outdoor wireless access points that are located far from the network control center.

- Extends Cat.5 cable installations to beyond 100 meters
- 2-Port Ethernet Power Sourcing Equipment(PSE)
- Forwards Power over Ethernet (PoE) to remote device
- Fully transparent no restrictions to network traffic
- No power required
- Simple to install works instantly
