cleaning companion

80°C Hot Water³ for Truly Clean Mops

The Multifunctional Dock 3.0 Thermo+ uses 80°C hot water to dissolve stubborn stains and grease, ensuring your mops are thoroughly cleaned and hygienic with every use.

With structured light and an RGB camera, the robot intelligently detects and avoids 108 types of objects, seamlessly navigating around obstacles in both well-lit and dark spaces-no need to clear your floor beforehand.

One Tap to AI-Driven Cleaning

Haven't cleaned in a while? Deep clean boost. Kitchen? Mop re-wash before moving on. Roborock SmartPlan 2.0 customizes your cleaning based on your habits, room types, and floor materials for efficient cleaning tailored to your home.
