itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The SE920 features the latest generation USB4 transmission interface, with transmission performance of up to 3,800MB/s. Transfer of a 10GB 4K high-definition video can be completed in about 3 seconds.

Press for Patented Active Cooling

Worried about heat caused by high-speed transfers?!

The SE920 features a unique heat dissipation system with a built-in micro fan. When in use, press down on the case to activate the fan, increasing interior area for cooling and quickly dissipating heat. Press the case again to retract its shroud, making it easy to carry. This ingenious "active patented cooling" system is 10% cooler than fanless products of the same specifications.

Built for Seamless Gaming

The SE920 can also be connected to a game console to expand your storage. Loading times are faster than traditional hard drives, instantly improving your entertainment and quality of life.

Multi-platform Support Wherever Your Life Takes You

The SE920 utilizes a USB Type-C port, which can connect to different operating systems including Android, Mac OS, and Windows, computing platforms, and gaming devices. The SE920 can transfer various types of high-definition audio and video anytime, anywhere.
