portrait orientation while charging. It's sleek and modern design fits well in any setting from the desktop to the night stand and a discreet, downward facing LED indicator gently pulses when charging. The stand uses a thermal dissipation system to minimize heat silently without needing a fan. Built with high quality materials and tested for safety and durability, we confidently back the stand with a 2yr manufacturer's warranty.

The wireless stand comes by itself and has a USB-C power input. A USB-C cable and wall charger is needed to power the stand and are not included.

Please ensure that your device is Qi compatible before purchasing as this only works with Qi capable phones.
