Add a 10/100/1000Mbps Ethernet port to any PC through a PCI Express slot

This TAA-compliant Gigabit Ethernet card adds a gigabit Ethernet interface to a desktop or server.

Plug And Play Compatible

This 1-port network interface card is plug-and-play compatible, with drivers that auto-install on major operating systems such as Windows, Windows Server, and Linux. It is compatible with Intel and AMD hardware platforms equipped with PCI Express x1, x2, x4, x8, or x16 slots.

Performance and Management

This network card features link speed and activity LED indicators for visual network speed verification and issue diagnosis.

This PCIe network adapter supports 9K jumbo frames to minimize packet overhead, Wake-on-LAN (WoL) for remote system booting, auto-negotiation between 10/100/1000Mbps, and VLANs for streamlined network management.

Universal Fit

The PCI Express NIC includes a pre-installed low-profile bracket for compatibility with small form-factor computers, as well as a standard-profile bracket for full-sized desktops and servers.
