Model: USB32VGAV

Manufacturer: STARTECH.COM

EAN: 065030860833

Product Code: 1071853

R1,562

USB 3.0 External Video & Graphics Card | Multi-Monitor | USB-Powered | Supports Windows

This USB 3.0 to VGA video adapter works as an external video card, enabling the USB port on your computer to output video to a VGA display at 1920 x 1200 resolution. The adapter also features on-board driver installation, which means the adapter will work when you connect it, even without a software disc or Internet connection.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Save time and hassle with on-board driver installation

For the ultimate in hassle-free installation, this USB video adapter features on-board drivers which prompts for installation as soon as you connect the adapter to your Ultrabook or laptop computer. This means you can maximize portability by never requiring an installation disc or Internet connection to install the device.

Increase your productivity by connecting an additional display

Adding a second or third display to your computer can vastly increase your productivity by giving the freedom to access more applications at the same time. This video adapter is intended to support all of your business applications including web browsing, e-mail. spreadsheets and presentations. You can also leave your system video card available for more demanding applications such as gaming or CAD design, while you use the USB monitor for reference material.

USB 3.0 performance for business applications

Using the high-bandwidth USB 3.0 interface, this adapter enables smoother scrolling through documents, higher refresh rates and an overall enhanced performance over USB 2.0. The adapter is optimized for use with USB 3.0, but for added compatibility this adapter is also backward compatible with USB 2.0 computer systems supporting an 800 x 600 resolution at 60Hz.

The USB32VGAV is backed by a 2-year StarTech.com warranty and free lifetime technical support.

The StarTech.com Advantage

- Simplify installation while you're on the go, with on-board memory enabling you to install the adapter without a CD-ROM drive or Internet connection
- Increase productivity by connecting an additional display to your Ultrabook or laptop workstation
