

Epson V12HB09080 document camera White 25.4 / 3.2 mm (1 / 3.2") CMOS USB/HDMI/Wi-Fi

Model: V12HB09080

Manufacturer: EPSON

EAN: 8715946717708

Product Code: 1072444

R20,471

The ELPDC30 is perfect for teachers who want to transform digital learning. Thanks to 4K UHD resolution and the 13 mega-pixel camera, image quality is stunning in every learning setting. It has a shooting area up to A3, and when combined with an Epson projector the content can be displayed on a large screen that's accessible to all students. Add in 230x zoom ratio and every detail can be shared and discussed in perfect clarity.

The ELPDC30 can be connected directly to the main display wirelessly or via Miracast at 30fps (60fps max without Miracast), without being limited by HDMI connectivity. Being compact, lightweight and having a built-in carry handle, makes handling safe and easy.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The microscope attachment means the smallest content can be viewed at the largest of scales, while USB memory storage of up to 32GB gives the ELPDC30 the ability to record, capture and store images for future sessions and classes.

The flicker-reduction feature ensures a comfortable viewing experience, making it a healthy choice for young eyes, and a flexible mechanical head with built-in LED light enhances the content being shown.

An optional carry case provides extra protection when moved between rooms or locations and, if the ELPDC30 needs to be secured, it comes with a Kensington lock.
