**Premium Quality**

Exceptional Power & BandwidthDelivering up to 240W (48V/5A) of charging power, this high-performance cable easily handles power-hungry monitors, docking stations, conferencing equipment, and laptops. Built on USB4 Gen 3x2 architecture, it delivers data transfer speeds up to 20 Gbps, ensuring smooth transmission of uncompressed 4K video, high-resolution audio, and real-time signals for professional AV environments.

Extended Lengths, Maximum FlexibilityAvailable in 3 m, 4 m, and 5 m, this extended cable range is optimized for AV integration, desktop-to-display connections, and equipment racks where additional reach is critical without compromising speed or signal quality.

**Liquid Silicone Comfort**

Crafted with premium liquid silicone, the cable offers a silky-smooth texture, exceptional flexibility, and superior resistance to tangling. Soft to the touch yet built to last, it’s the perfect blend of
