

Ultimea Skywave X70 Soundbar

Model: U442A

Manufacturer: ULTIMEA

EAN: 4262533460300

Product Code: 1078898

R16,063

Ultimea Skywave X70 Soundbar

The Ultimea Skywave X70 is a soundbar-based home theater audio system. Its 7.1.4 configuration with Dolby Atmos, four upward-facing speakers, and 12 precision drivers create a full-scale 360° surround sound stage that envelops the listener from all sides—including above. Powerful yet controlled low frequencies are delivered by a 10" wireless subwoofer with bass extending down to 20 Hz, supported by Gravus Ultra-Linear Bass technology and a new-generation GaN amplifier. The system is complemented by advanced NEURACORE™ (2000 MIPS) advanced processing, stable Dual 5 GHz wireless transmission with less than 20 ms latency, and 4K HDR pass-through via HDMI eARC, giving the Skywave X70 full, dynamic, and precise sound without compromise – for movies, games, and music alike.

Precise NEURACORE™ processing

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The system uses advanced NEURACORE™ processing, based on a triple-core DSP processor and a dual-core microcontroller. The chip offers 24-bit/192 kHz resolution, very low distortion (1%) and 2000 MIPS processing power, supporting up to 17 surround sound channels. The result is extremely precise channel separation, natural sound height and high detail even in dynamic scenes.

360° surround sound

The rear speakers use a two-way design, combining side and upward-facing drivers. This allows the sound to be dispersed in multiple directions, creating a wide, immersive 360° soundstage that remains consistent whether you're watching movies, playing games, or listening to music.

10" subwoofer with bass down to 20 Hz

The wireless subwoofer is equipped with a 10-inch woofer, offering bass down to 20 Hz. Thanks to Gravus Ultra-Linear Bass technology, an enlarged waveguide, and a precisely tuned 40-liter acoustic chamber, low frequencies remain clean, deep, and free of rumble even at high volume levels. The subwoofer's maximum output power reaches 500 W, and the system's total peak power is 980 W.

Next-generation GaN amplifier

The GaN amplifier used here outperforms classic silicon solutions in terms of efficiency, dynamics, and signal control. It features low heat emission, high energy efficiency, and the ability to faithfully reproduce details and a wide dynamic range, resulting in a more natural and dynamic sound.

Dual 5 GHz wireless transmission

The system uses next-generation Dual 5 GHz wireless transmission, based on two 5 GHz channels and advanced RF and network protocols. This solution effectively reduces interference and latency, ensuring a stable, professional-grade connection between the soundbar, subwoofer, and speakers with a latency of less than 20 ms.

4K HDR pass-through

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The Skywave X70 supports 4K HDR pass-through, allowing you to enjoy the highest image quality directly from consoles, players, and streaming services. The HDMI eARC port allows simultaneous transmission of video and full-channel surround sound, eliminating the need for additional cables.

Full control - remote control and Utimea app

The system is controlled by an improved infrared (IR) remote control with an intuitive button layout and a dedicated X-Upmix button that allows you to convert non-Dolby content into surround sound. In addition, the Utimea App offers a 10-band equalizer, 21 preset sound profiles, and listening modes, including Movie, Music, Voice, Sports, Game, and Night, allowing you to precisely tailor the sound to your preferences.

Included:

- Soundbar
- Wireless subwoofer
- Speaker x2
- Remote control (IR)
- Soundbar power adapter
- Power adapter for surround speakers
- Subwoofer power cord
- HDMI cable
- Digital optical cable
- Mounting brackets
- Mounting screws
- Wall plugs

General

Manufacturer Utimea

Model U442A

Audio system

Channel configuration 7.1.4

Number of drivers 12

Dolby Atmos yes

Drivers

Soundbar (main band) 2.25" × 6 + 2.25" × 2

Speakers 2.25" × 2 (side) + 2.25" × 2 (top)

Subwoofer 10" × 1

Audio specifications

Frequency range 20 Hz – 20 kHz

Max. SPL >102 dB

Signal-to-noise ratio ≥75 dB

Distortion 1%

System peak power 980 W

Connectivity

HDMI eARC ×1

Optical input ×1

USB ×1

Bluetooth: 5.4

Power supply

Soundbar 18 V / 5 A

Speakers 18 V / 1.5 A

Subwoofer 35 V / 4 A

Dimensions and weight

Soundbar 1100 × 100 × 70 mm

Speaker 85 × 85 × 170 mm

Subwoofer 428 × 428 × 300 mm

Total weight 27.65 kg
