R3,350

Liene Amber M100 4x6" Portable Photo Printer

The handy Liene Amber printer allows you to transfer digital images to paper in just 59 seconds, offering professional photo studio quality. Thanks to dye-sublimation technology and 300 DPI resolution, each print impresses with exceptional color depth and precise detail reproduction. The device supports popular image file formats such as JPEG and PNG, allowing you to conveniently print photos and designs without additional conversion.

No ink, no mess

The printer uses dye sublimation to transfer color to the paper, eliminating the need for liquid ink. This means no risk of ink drying out, smudged prints, or the need for frequent cleaning of the device's interior. The cartridges are smaller and easy to replace, simplifying operation and allowing

you to focus on printing rather than equipment maintenance. It's a solution that delivers perfect results without unnecessary effort.

Memories resistant to time and water

Liene Amber applies colors with high precision using a thermal sublimation process and then protects the photo with a special protective layer. Automatic lamination makes the prints resistant to splashes, dust, and fingerprints, and the colors do not lose their intensity over time. This allows you to store your photos in an album, frame, or wallet without worrying about their condition, so your memories remain in perfect quality for longer.

Modern style and thoughtful design

The elegant white casing with a matte finish not only looks great on any desk, but is also extremely easy to care for. The entire design has been carefully thought out - convenient access to the interior and a system of ventilation holes ensure ease of use and adequate air flow.

Functional design for every trip

A magnetic paper tray, which can be conveniently attached to the top of the casing, makes storage easier and saves valuable space. Thanks to its compact dimensions and weight of only 1.2 kg, you can easily take the printer with you on every trip to enjoy your photos wherever you are.

Unlimited connectivity anywhere

The built-in Wi-Fi access point allows you to print photos directly from your smartphone without having to use your home network, giving you complete freedom. Whether you're traveling, hosting a garden party, or going on a family picnic, you can instantly print your memories and share them with your loved ones.

Invite your loved ones to print together

The printer works with iOS and Android devices as well as PCs and Macs, so you can conveniently transfer and print photos from your smartphone, laptop, or desktop computer. The universal USB-C

port provides a stable wired connection, and the ability to connect up to five users at the same time makes it quick and convenient to create and print memories together during family gatherings or parties. This flexibility allows you to share your memories in perfect quality without any restrictions.

Creativity at the touch of a button

The Liene Photo app makes it easy to edit photos before printing. Filters, frames, and effects are available to give your photos a personal touch. The app also features an ID Photo mode, allowing you to prepare and print photos for ID cards or visas at home. It's a convenient solution that combines creativity and functionality in one place.

Thoughtful operation and performance

Performance goes hand in hand with convenience here. The spacious feeder holds 20 sheets of photo paper at a time, which, combined with the included cartridge, allows you to immediately print the first batch of your favorite shots. The wide operating temperature range ensures reliability in home conditions, and the complete starter kit means you can start creating lasting memories right out of the box.

Included in the set

- photo printer
- ink cartridge (1 piece)
- 4x6" photo paper (20 sheets)
- power adapter
- user manual

Manufacturer	Liene
Model	DHP513
