Single-frame PWM fans streamline multi-fan installation by connecting as a single unit, providing precise fan speed control, exceptional cooling, near-silent operation, and stunning RGB lighting.

Peak Radiator Efficiency

UTTERIGHT radiator fins are precisely contoured at a right angle which expands the heat transfer surface area, pushing thermal efficiency beyond conventional structures.

Cutting-Edge Compatibility

The Poseidon Vistek ARGB supports AMD AM5 and Intel LGA1851 sockets.

Rotatable Pump Head

The rotatable pump head is adjustable for 360° display orientation for perfect alignment within your setup.
