

GENESIS NLG-2320 computer cooling system Processor All-in-one liquid cooler Black

Model: NLG-2320

Manufacturer: NATEC

EAN: 5901969449372

Product Code: 1080745

R2,608

GENESIS Hydria water cooling system is designed for users who demand top-tier performance, modern aesthetics, and hassle-free installation. Whether you're building a gaming rig or a high-end workstation, Hydria delivers reliable cooling you can count on.

GENESIS Hydria is a water cooling designed for users who expect not only high performance, but also modern design and maximum installation convenience. Whether you are building a PC for gaming, creative work or everyday use, Hydria is a cooling you can always rely on.

Performance, style and control in one

Feel the power of a three-phase pump that provides less vibration, lower noise and more stable operation compared to competitive solutions on the market. Importantly, greater energy efficiency

also means better impeller cooling, less power loss, meaning longer life. Hydria also means unique style and simple control with optional ARGB backlighting, which you can turn off with one click from the motherboard software.

Full freedom of logo positioning

Decide for yourself how you want your hardware to look - the subtly illuminated, white GENESIS logo on the block-pump matches perfectly with the mounting position of the entire cooling unit thanks to its ability to rotate 360°, so that it always looks stylish.

Maximum compatibility

The compact block-pump design is a guarantee of high compatibility - even with extended cooling sections on modern motherboards.

Effective performance for years to come

You'll find 4-pin PWM fans - with or without ARGB backlighting - with durable FDB bearings and airflows as high as 80 CFM. This guarantees maximum performance without compromise.

The perfect companion for your processor

You can easily mount Hydria on the most popular Intel and AMD sockets - whether you are assembling a new kit or upgrading your current one. Hydria will perform in all conditions.

Three plugs - done!

Only three plugs are needed to run the cooling - pump, fans and - optionally - ARGB, making installation easy, fast and hassle-free.

Flexibility where you need it

At GENESIS, we know the needs of discerning users, so we've taken care of aesthetics and convenience - the braided cables are durable and flexible, and you can rotate the hoses up to 180° for easy organization of space in the case.

Design that impresses

The matte finish of the radiator with the elegant embossed GENESIS logo will go well with other elements of your setup to create a cohesive, eye-catching whole.
