

InLine 16471B power extension White

Model: 16471B

Manufacturer: INLINE

EAN: 4043718334308

Product Code: 1081490

R820

Combined connection solution: Simultaneously supplies two Euro plugs and an earthed appliance via just one wall socket - ideal for technical workstations.

Increased touch protection: Provides added safety in professional environments such as laboratories, training rooms or public facilities.

High load capacity: With an output power of up to 16 A / 250 V, the adapter is also ideally suited for more powerful devices.

Versatile application options: Supports the parallel use of a wide variety of device types - from peripherals to household appliances.

Space-saving design: Ideal for tight installation locations where classic socket strips are too bulky.The InLine® socket outlet adapter with earthing contact plug, two Euro sockets and one earthing contact socket is the clever solution for mixed connection requirements in professional applications. Whether in offices, technical laboratories or training rooms - the adapter enables the simultaneous use of devices with Euro plugs and earthing contact plugs via a single wall socket. Thanks to the increased touch protection, it is particularly suitable for safety-sensitive environments. The high load capacity of up to 16 A / 250 V means it can also be used for more power-intensive
