

InLine USB power supply, GaN charger, 4-port, 2x USB-C + 2x USB-A, 120W, white

Model: 31515W

Manufacturer: INLINE

EAN: 4043718333646

Product Code: 1081615

R1,624

The InLine® GaN charger provides you with four powerful connections in a compact and efficient housing. Two USB-C and two USB-A ports deliver a total output of up to 120 W and enable simultaneous charging of smartphones, tablets, laptops or accessories.

Thanks to modern GaN (gallium nitride) technology, the power supply is significantly more efficient than conventional silicon models. This means less heat generation, lower energy losses and a considerably smaller design. Ideal for professional applications in offices, conference rooms or mobile service use.

Both Power Delivery 3.0 and QuickCharge 4+ are supported, allowing even power-hungry devices to be charged reliably and quickly. Intelligent power distribution ensures that connected devices are always optimally supplied – even when several ports are in use at the same time.

The charger can be positioned flexibly: standing with the stand or lying flat thanks to the included
