multifunctional solution for workplace design. The product combines Qi-standard wireless charging with a well-thought-out storage concept: three storage surfaces keep your desk tidy, while smartphones can be charged conveniently and without cable clutter.

The organiser is made of real walnut wood – each piece is unique. The natural grain makes it a decorative eye-catcher in modern offices, meeting rooms or reception areas. The organiser also cuts a fine figure in hotels and conference environments.

Thanks to the integrated triple coil technology, Qi-compatible devices can be positioned flexibly. A status LED provides reliable information about the current charging process at all times. Connection is convenient via USB-C.

Whether as an addition to existing workplace concepts or as a stylish individual element, the InLine® WoodCharge Organiser is a functional design item with real added value for professional customers.

Input voltage: DC5V / 3.0A, DC9V / 2.0A, DC12V / 1.5A

Wireless output: 5W / 7.5W / 10W / 15W
