

InLine 35392D interface hub USB 3.2 Gen 2 (3.1 Gen 2) Type-C 10000 Mbit/s Grey

Model: 35392D

Manufacturer: INLINE

EAN: 4043718345458

Product Code: 1081667

R1,655

High connectivity:With 3x USB-C, 2x USB-A, and HDMI, the hub offers a wide range of connection options for modern workplaces.

Fast data transfer:USB 3.2 Gen.2 enables transfer rates of up to 10 Gb/s for efficient work with large amounts of data.

Powerful power supply:Power Delivery 3.0 supports up to 100 W, ideal for charging notebooks and mobile devices during operation.

Professional monitoring:The integrated display shows status information for all ports in real time, facilitating analysis in IT operations.

Reliable compatibility:Supports Windows, macOS, Linux, and ChromeOS without additional driver installation.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The InLine® USB 3.2 Gen.2 Hub 35392D is the ideal solution for professional users who require maximum flexibility and reliability when connecting devices. With a total of three USB-C and two USB-A interfaces as well as an HDMI connection, workstations can be efficiently expanded. Thanks to USB 3.2 Gen.2, you benefit from transfer rates of up to 10 Gb/s, which makes the hub particularly interesting for data-intensive applications such as CAD, media production, or IT support.

The integrated power delivery function with up to 100 W not only allows you to charge notebooks, but also to power other devices at the same time. The integrated display offers clear added value: All interface status information is displayed in real time and can be switched or rotated at the touch of a button.

Thanks to its universal compatibility with Windows 10 or higher, macOS 12 or higher, ChromeOS, and Linux, the hub can be used in a variety of ways. With its robust workmanship and compact design, the InLine® hub is a reliable and future-proof solution for everyday professional use.

Compatible with USB 3.2 Gen.2 and DisplayPort Alt Mode 1.4

Input: USB-C plug, with 15 cm cable, supports PD 3.0

Video connection: 1x HDMI-A

Video resolution: HDMI 2.0, 3840x2160@60Hz, HDCP 2.3

Audio output: Stereo, 192kHz sampling rate

USB ports:

2x USB-A female (USB 3.2 Gen.2) with up to 10 Gb/s data transfer rate and 5.0V/0.9A/4.5W output power

2x USB-C port (USB 3.2 Gen.2) with up to 10 Gb/s data transfer rate and 5.0V/2.0A/10.0W output power

1x USB-C port (PD 3.0 power connection, up to max. 100 W) for optional power supply

Compatibility: Supports Windows 10 or higher, macOS 12 or higher, ChromeOS, Linux

Operating temperature: 0°C – +40°C

Storage temperature: -30°C – +70°C (max. 90% relative humidity, non-condensing)

Display functions

Continuous display of status information for all interfaces

Display of:
