

InLine 69927E cable accessory

Model: 69927E

Manufacturer: INLINE

EAN: 4043718346721

Product Code: 1081754

R924

Compact fiber optic coupling: Only 74 mm long – ideal for installation in confined spaces in outdoor enclosures or network cabinets.

IP68-protected connection: Dustproof and waterproof – for a secure fiber optic connection in adverse environmental conditions.

Robust and durable: Housing made of PA66 plastic with silicone seal – for lasting protection and mechanical stability.

Easy integration: With pre-assembled SC simplex sockets – tool-free installation via screw connection and rubber seal.

M20 thread: Standardized size – easy to use in enclosures, distribution panels, or industrial installations.

The InLine® SC fiber optic cable coupling in a short design offers a robust, protected connection for fiber optic cables in demanding environments. With a compact length of only 74 mm, it is particularly suitable for installations with limited space – such as in network cabinets, outdoor distributors, or industrial applications.

The coupler is equipped with two SC simplex sockets and is suitable for single-mode connections with UPC or APC polish. Thanks to its IP68 protection class, it is reliably protected against water,

dust, and temperature fluctuations from -40 °C to +85 °C. The housing is made of durable nylon (PA66), complemented by a silicone gasket for reliable sealing.

No tools are required for installation: simply feed the cable through the gasket, screw it into the M20 housing, and seal it with the green sealing ring, as illustrated in the instructions. This creates a durable, vibration-proof connection for indoor and outdoor fiber optic networks.

This fiber optic coupler is the ideal choice for professional installations where reliability and compactness are required.

Material: Nylon (PA66)

Seal: Silicone

Module: SC Simplex female/female

Thread size: M20

Application: Single-mode UPC/APC

For cable diameters: 2.9 mm

Dimensions: 74 x 26 mm

IP protection class: IP68

Temperature resistance: -40 °C to +85 °C
