speed with up to 5 Gb/s and is **completely backwards compatible** with older USB standards. For the **stable operation of external devices with higher power consumption**, the card has a **Molex-compatible 4-pin power connector**, which ensures an additional power supply if required. The card supports **Plug & Play and Hot Plug** and is ready for immediate use. The **compact design** and the supplied **low-profile slot bracket** enable installation in both standard PCs and compact cases.

Technical data:

Bus type & PCIe: PCIe v2.0

Chipset: VIA VL805 (USB)

Ports – interfaces:

3 x external USB 3.2 Gen.1 A sockets

1 x internal USB 3.2 Gen.1 A port

1 x Molex compatible 4-pin power connector

Data rates:

Super-Speed: up to 5 Gb/s

High speed: 480 Mb/s

Full speed: 12 Mb/s

Low speed: 1.5 Mb/s

Dimensions: 80 mm x 60 mm (PCIe board)

Operating conditions:

Operating temperature: -40 °C to +85 °C

Functions:

Supports legacy USB functions

Plug & play and hot plug compatible

No external drivers required

System requirements: Hardware:
